“I have been honored to participate in this meeting over the past three years as a Distinguished Professor. This program represents the most comprehensive, up-to-date, review of the latest information (both basic science and clinical) on both current and new orthopaedic treatments. This course is a MUST for surgeons, physicians, nurse practitioners, fellows and residents involved in the care of orthopaedic patients.”

–**Steven P. Arnoczky, DVM**  
Professor, Michigan State University

“I truly enjoyed being a part of such an incredible learning experience. Participants get to have the best professors in the field of orthopaedics in one place at the same time! Three days of non-stop interaction with Cadaveric Labs, panel discussions and heated debates!”

–**Russell F. Warren, MD**

“I have participated in the Orthopaedic Summit in Las Vegas since the first year and every year it gets bigger and better! The program is composed by the greatest minds in our profession! The social program plus Las Vegas is awesome!”

–**Richard J. Hawkins, MD**

“I am really excited about Chairing the latest addition to the Orthopaedic Summit 2014's, Foot & Ankle session in Las Vegas and looking forward to working with the brightest individuals!”

–**Roger A. Mann, MD**

“Last year I had the honor of serving as Chair of the Hip Arthroscopy session. The dedication of the faculty and the attention of the participants during each session are incredible. The debates are intense and phenomenal!”

–**Marc J. Phillipon, MD**

“Serving as Chair for the Knee Session at last year's meeting in Las Vegas was a memorable experience! The sessions were informative, new techniques were introduced and the faculty was amazing. These last couple of weeks really cannot come any sooner!”

–**Mark D. Miller, MD**
