

Medoptic

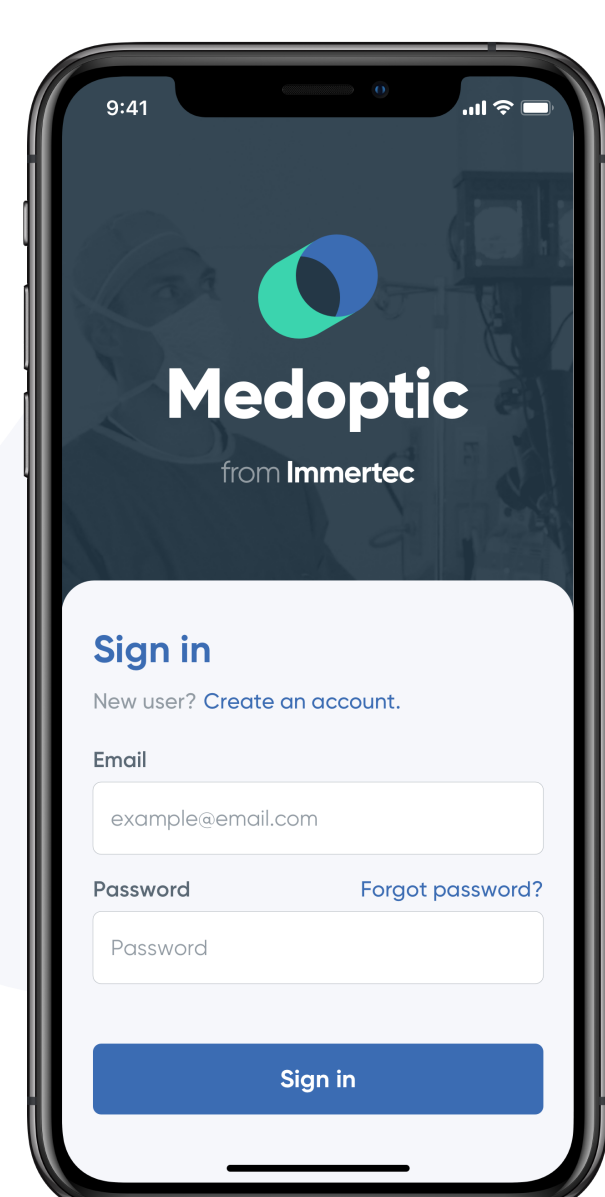

from Immertec

Orthopaedic Foundation offers a VR teleconferencing platform that allows trainees to transport into our live training events and workshops from their home or office.

1

Attendees register for live surgery events via the Medoptic App

2

VR headsets are delivered to view the procedure

3

A live, 3D VR feed is streamed from the operating room

INCREASE SURGEON ENGAGEMENT

Accomodate surgeon schedules, minimize travel and risk of infection

PRODUCT DEVELOPMENT

Facilitate collaboration with surgeon consultants, engineering and marketing on PD sessions

SCALE REP TRAINING

Expedite team member training on new products and techniques

END-TO-END SERVICE

Invite, approve and manage attendees via the Medoptic platform

INCREASE EXPOSURE

Invite additional participants to virtually attend limited capacity events
